CAPABILITY STATEMENT

Remote Area Group servicing all areas and all-weather with our all year round air access across remote Australia
• Fire Equipment Testing • Test and Tag • Pest Control • Evacuation Diagrams • First Aid Kits • First Aid Training • Scale Validation

WHO WE ARE

In 2010 Martin Evans commenced trading as 'Remote Area First Aid' delivering first aid training in remote communities. Over time there was an identified need in the market to provide organisations in remote communities and across regional Australia with an all-in-one solution to meet their Work Health and Safety obligations.

Today, Remote Area Group has grown to provide a reputable multi-service all-year-round delivery of Work Health and Safety to customers to meet their compliance needs. The Remote Area Group team and fleet of aircraft has consistently expanded to meet the growing demand for assistance with Work Health and Safety compliance in the bush.

Remote Area Group specialise in providing essential Work Health and Safety supplies, services and training in remote and regional Australia. We service government and non-government agencies and businesses so they can meet their safety compliance requirements.

You can count on us as we deliver our services to all areas, in all-weather with our all-year-round air access across to remote and regional Australia.

WHAT WE DO

We provide a broad range of Work Health and Safety supplies, services and training to remote areas to meet your compliance requirements.

first aid kit sales and restocking

pest control

CUSTOMER CONFIDENCE

When you do business with us you are engaging a group of professionals that are experienced working on country. Our team are culturally competent operators, respectful and have several years' experience delivering services in remote communities.

We own and operate a fleet of aircraft to ensure we get to you on time every time whatever the road conditions are like.

“Our goal is making your business a happy, safe, life-long, Work Health and Safety compliant organisation.”

Martin Evans

TRUSTED BY

FIRST AID KIT SALES & RESTOCKING

First Aid Kit sales and restocking can be scheduled and completed using our state-of-the-art app for peace of mind for compliance and workplace safety. We come to you anywhere in the NT on a schedule to suit your risk/need.

All items we supply are TGA approved (*Therapeutic Goods Act*) and satisfy the Work Health and Safety guidelines.

For your convenience, all items are available to purchase online at www.remoteareagroup.com.au

EMERGENCY EVACUATION DIAGRAMS

It is imperative that your building's occupants know how to quickly and easily act in the event of an emergency. Implementing clear evacuation signage and diagrams and developing and rehearsing emergency response procedures, will equip your occupants with the knowledge and tools they need to respond safely and correctly.

FIRST AID & SAFETY TRAINING SERVICES

We can provide you and your staff with a fully managed, practical training program, tailored to be relative to your context. Language-free assessment bridges the gap in more remote communities.

- ✓ HLTAID001 – Provide Cardiopulmonary Resuscitation
- ✓ HLTAID002 – Provide Basic Emergency Life Support
- ✓ HLTAID003 – Provide First Aid

- ✓ HLTAID004 – Provide an Emergency First Aid Response in an Education and Care Setting
- ✓ HLTAID005 – Provide an Emergency First Aid Response in Remote Situations
- ✓ HLTAID006 – Provide Advanced First Aid
- ✓ UETTDRRF06B – Perform Rescue from a Live LV Panel

**Training is delivered in partnership with Allens Training Pty Ltd RTO # 90909.

COMPLIANCE TESTING & INSPECTIONS

Remote Area Group has developed an App to provide you with an efficient and productive schedule so that we minimise the amount of time in your workspace so you can continue on as business as usual. For many of our clients, they also arrange an after-hours inspection and testing schedule to avoid disruption during operational hours.

Our reports are detailed and are submitted to you within 24 hours. Each report includes photographs of failed items and details all items that fail the visual inspection and testing and are quarantined by our technicians.

If your organisation has specific Work Health and Safety guidelines for failed items our team will adhere to those directions.

Portable Fire Equipment Testing

We inspect and service all portable fire safety equipment including fire extinguishers, fire hoses, fire blankets, smoke alarms. We also ensure that all signage and placement of equipment are up to current AS1851-2005 standards.

Scale and Measuring Instrument Validation

Remote Area Group individually test and report on all scales, issuing a 'Test Certificate' to ensure your scales are accurate. Each scale has a series of weights starting at just 10 grams placed in 4 multiple locations on the scale. Each result is recorded against the scales MPE (Maximum Permissible Error) and shown in the Test Certificate. Each scale then has an accuracy test sticker attached.

Vehicle and Asset Inspection Reports

If you remotely manage a fleet of vehicles, you will immediately see the benefits of Remote Area Group performing our scheduled condition reports on a range of plant, equipment and vehicles. Our thorough checks include tyres, lights, safety equipment, exterior and interior condition, MVR registration and inspection expired dates, we record the hours and km's and take photos.

- ✓ trailers
- ✓ light vehicles
- ✓ emergency vehicles
- ✓ heavy vehicles
- ✓ forklifts

TESTING & TAGGING

Our testing and tagging technicians thoroughly inspect each item of portable electronic equipment in the workplace. Inspections are completed to detect existing faults and be the foundation of an ongoing inspection program. Your regular safety check program also acts as a comprehensive asset location report for your company for insurance and maintenance purposes.

All electrical tests conducted by Remote Area Group are in compliance with Australian Standard AS/NZS 3760:2010 and are carried out by competent staff.

Visual and electrical testing will identify problems such as:

- ✓ RCD trip times and faults
- ✓ Faulty wiring
- ✓ Damage from exposure to moisture, chemicals and the weather
- ✓ Current leakage
- ✓ Earth faults
- ✓ Insulation resistance
- ✓ Exposed and damaged wires and cords

AFFILIATIONS

PEST CONTROL

We provide all aspects of pest control services to protect your assets and community health. We service commercial and residential properties across remote and regional areas of Australia. Our chemical treatments are safe, fast and effective for the eradication of:

- ✓ Ants
- ✓ Bedbugs
- ✓ Cockroaches
- ✓ Fleas & Ticks
- ✓ Rodents
- ✓ Spiders
- ✓ Termites

CASA LICENCED AERIAL PHOTOGRAPHY

We use our commercially licenced drone to capture the all-important images you need. Whether for use in one of your emergency evacuation diagrams or asset inspection we have you covered.
