

## RAG 4+ MODULATOR

LOW RISK 1-50 PERSON  
HIGH RISK 1-25 PERSON

### The injury specific module kit you have all been waiting for!

The Modulator makes first aid easy with individual injury specific modules. The modules enable users to access the items they need for a range of injuries with little more than a glance! The kit is available as a tough metal cabinet or as a versatile soft carry case.

The Modulator consists of 6 colour-coded modules that meet and exceed standard workplace regulations for every state and territory. The ideal kit for work, leisure, or home.

# RAG Modulator SERIES 4+

### IT'S WHAT'S INSIDE THAT COUNTS First Aid Modules

- ✓ Workplace Compliant with Colour-Coded Modules
- ✓ 1-50 Low Risk  
1-25 High Risk
- ✓ Individual Module Replacement

#### Colour coded injury specific modules

- ✓ Provide fast access to a comprehensive range of first aid items
- ✓ Easy module replacement
- ✓ Clearly labelled for quick identification in an emergency
- ✓ Made with ripstop fabric, for added security and protection

# Restock & Audit Options

## Option A - No Charge Audits

- Our technicians inspect the master seal of the kit and document its expiry date and sign the audit sticker. Should the master kit seal be compromised, they will examine the individual seals of each module. If any of these seals are broken, the affected modules will be reordered and billed based on the costs listed on page 4. An A4 compliance PDF report is provided for each kit.

## Option B - \$20 per kit audit

- Our technicians inspect the master seal of the kit and document its expiry date and sign the audit sticker. Should the master kit seal be compromised, the individual contents of each module are counted and verified. Any missing items are ordered and billed as necessary. For each kit, we provide a compliance A4 PDF report detailing the item count from the unsealed modules. Please note if the kit is sealed there will be no charge as per option A.

## DRESSINGS & BANDAGES

## EYE WOUND

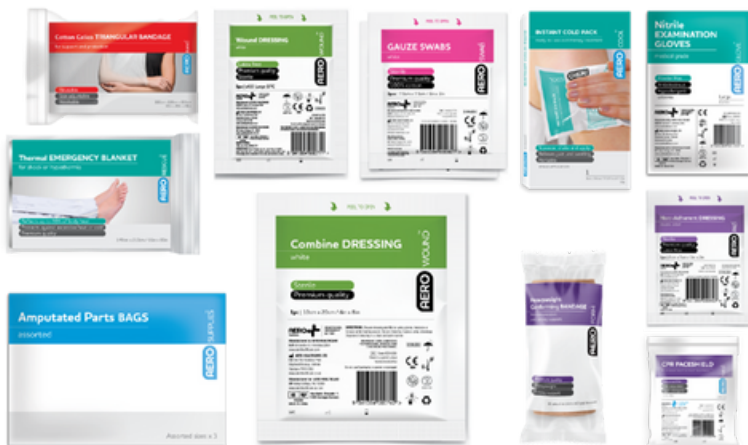

## CUTS & GRAZES

## BURNS

## TRAUMA

## SNAKE BITE

Always read the label and follow the directions for use

# Between our site visits

## **QR Codes & Asset Management:**

We're thrilled to unveil our latest feature: Asset Management via QR Codes. Each of our first aid kits now comes with a unique QR code, tailored specifically to you as our valued client and pinpointing its exact location. This innovation promises to be a significant time-saver for both you and your staff.

## **Imagine this scenario:**

Following a workplace incident, the responder can effortlessly scan the kit's QR code, snap a photo of the items used, and voilà! A quote for the replacement items will be dispatched directly to the site manager for approval.

Streamlined, efficient, and incredibly user-friendly – managing your first aid supplies has never been this easy!
